## THE BIG DRIVE OF DEMOCRATS

STATE CAMPAIGN COMMITTEE PUTS IN FINAL LICKS—GOS-SIP FROM LOUISVILLE.

Louisville, Ky., Oct. 18. (Special.) For nearly a year observers of the European war have been waiting for the promised "big drive" that would win for one side or the other and bring the great struggle to an end. That drive has not come. But there is a drive just started in Kentucky, which, if equalled and carried out by either of the contending forces in Europe will end in victory. That is the drive that the Democratic campaign managers in Louisville have started to shove across the goal line on November 2. Augustus Owsley Stanley and the rest of the Democratic ticket. In the language of the boys who use slang, it is "some drive" and, before it is over, the Democratic path will be fairly strewn with Republican corpses.

The Democratic plan of campaign includes holding at the enemy continuously until the eve of election all the heavy armament of the campaign. The big Krupp 45 centimeter guns now in action are A. O. Stanley, himself, rated as one of the greatest vote getters on the stump Kentucky has ever known. Hon. Hiram V. McChesney, who is "going down the line" for the ticket, Senator Otis M. James, Senator J. C. W. Beckham, Governor McCrory and many others. They will keep up an incessant bombardment on the fortifications of the enemy.

At the same time the field artillery, the sharpshooters and the rifles are also at work. Major General Hager, through his field officers, the county campaign chairman, is marshalling his cavalry and infantry. They are all in camp, every man counted and prepared. On November 2, they will march on the polls in one gigantic charge, covering the whole state and in the morning of November 3, they will count the dead and wounded Republicans and go back to their homes to rest for another year.

General Hager has sent word down the line that every Kentucky Democrat must do his duty. Every man must be at his post on election day. No excuses for staying at home will be accepted. The crops are all in. The shooting season does not begin until Nov. 15. If it rains, well, it rains alike on the just and the unjust. A wet skin never had a healthy man. This is the feeling of the campaign managers. They want General Overconfidence and General Apathy, the two commanders the Republicans are counting on most, to be ground into the earth by the individual Democratic soldiers.

If a voter thinks it is hard to get to the polls he might take the example of Stanley Morrow and a date to speak at Hindman, Knott co. Morrow got to Prestonsburg, Floyd co., and found he would have to ride sixteen miles across the mountains on a mule to get to Hindman. He cancelled his speaking dates. Stanley arrived in Prestonsburg two weeks later and found the same situation confronting him. "Bring on your mule," said "A. O." The mule was brought forward. "Old friend of Democracy, old tried and true friend of the farmer, if you'll carry me across these mountain roads, I'll ride you," said Stanley to the mule. "Old Morrow broke his thumb trying to drive an automobile over these mountain roads. I'll break my promise to the people of Hindman or the people of anywhere else. When I am elected governor I'll help build up these roads. Let's go." They went. The campaign managers figure that if Stanley can ride mules across mountains to keep speaking dates, the voters can jump their backs and get to the polls on election day.

Hon. H. V. McChesney at Shelbyville last week told a big crowd that the majority rules in the Democratic party, that the majority had spoken clearly in the primary, that as a Democrat he was supporting the entire ticket. He urged his friends who supported him in the primary to do the same thing. That the McChesney men will follow the primary is now a certainty and rumors of defection on their part have been completely exploded.

Around the Democratic headquarters in the Galt House appear all the signs of a real campaign. Prominent Democrats from all over the state are dropping in every day and with their help Judge Hager is checking up on conditions in every county. There is an air of confidence about all the leaders. They feel that the election of the entire ticket is a foregone conclusion if the Democratic vote comes out. They know that the full Republican vote will be cast, as the Republicans are working hard everywhere. Most of the county campaign chairmen are sending in good reports of conditions of their respective localities.

Arrangements for the special train which will carry distinguished speakers to both the western and eastern sections of the state during the last week of the campaign are now under way. Prominent Democrats from outside Kentucky who will be on the train are Senator James Hamilton Lewis of Illinois; former Governor Cox of Ohio; Congressman J. Thomas Hellen of Indiana and Congressman Dixon of Indiana. They are all great speakers and Democrats who live in the cities and towns along the route of the special train have a rare treat in store for them.

## ARRESTED IN OHIO IN MOREHEAD KILLING.

Urbana, O., Oct. 16.—Jerry Dye, said to be wanted at Morehead, Rowan-co., Kentucky, for the killing of Wiley Howell, an election judge, was arrested at Northville, near here, yesterday and is being held in the Urbana prison for the Kentucky authorities. In his cell, according to the police, Dye admitted that he had struck Howell three times with a pick handle, but he said he did so in self defense.

The police say Dye told them of how Howell had ordered the polls closed before he and several other voters had an opportunity to cast their ballots for his brother-in-law, the Rev. Arthur Howard, a candidate for the School Board.

Dye said the matter was brought up the day after election while he was at work on a road. Howell was a road superintendent. After the fight, Dye told the police here, he left his home and came North. Later his wife sent him word that Howell was not dead, Howell, however, died about a week ago. According to information furnished the local police a reward of \$500 had been offered.

## C. AND O. REPORTS NO DEATH FOR 1914.

The annual report to stockholders for the fiscal year ended June 30, 1915, which has just been issued by the Chesapeake & Ohio Railroad company, reveals some interesting facts. The total operating revenues were \$33,467,037, as compared with \$32,459,864 for the preceding year. The operating expenses were \$27,556,113, as against \$26,113,899 for 1914. The number of tons of freight carried amounted to 30,084,434, an increase of 2,326,439 for 1914. The number of passengers carried was 6,187,903, a decrease of 3,433. The number of passengers carried one mile amounted to the enormous total of 69,780,000, not one of whom was killed in a train accident. Very large sums were spent in maintaining the property, the expenditures for maintenance of way and structures amounting to \$4,619,522, and for maintenance of equipment \$3,243,176, both items representing large increases over 1914. The average rate per ton per mile on freight decreased 6 per cent, as compared with 1914 being now 3.84 cents. The average rate per passenger per mile was 2.15 cents. A very considerable gain in operating efficiency is shown. The average revenue train load was increased thirty-six tons, being now 306 tons, which establishes a record for records of the Chesapeake & Ohio mileage, length of average haul and operating conditions.

## HIGH GRADE COAL UNDERLYING THIS LOCALITY

THE DRILL SHOWS VALUABLE COAL DEPOSITS UNDER FT. GAY AND LOUISA.

Fort Gay, W. Va., Oct. 16, 1915. Big Sandy News.

Louisia, Ky. Gentlemen:—

Thinking it might be of interest to your readers I am offering below the analysis of coal underlying this part of the country and perhaps extending for a great distance.

In the drilling for oil on the Lyons, Lott and other farms about two miles from Fort Gay on the Big Sandy river and at a depth of two hundred feet a vein of coal is found from six to seven feet in thickness where this coal as analyzed came from. Besides this vein there are others at a less depth but not as thick.

Moisture..... 4.30 per cent.  
Volatile matter..... 39.00 " "  
Fixed carbon..... 49.30 " "  
Ash..... 6.90 " "  
B. T. U..... 13,572 (dry basis)  
This is a high grade gas coal and ranks very well as a steam coal proposition. Respectfully,  
A. V. OSBORN.

## SUICIDED IN WILLIAMSON.

Dave Maynard, a young girl about 15 years of age, committed suicide yesterday in the west end of this city. She shot herself through the heart with an U. S. army revolver and died instantly. She was standing before a mirror when she committed the act and never spoke and when her mother reached her she was dead. She left a note but there was nothing in it to denote the cause of the deliberate suicide.

The coroner's verdict was, "came to her death by a pistol shot fired by her own hand." Williamson News.

## HENRY L. PRICHARD DIED IN HOSPITAL.

Henry Lewis Prichard, son of Dr. L. Prichard of Charleston, died at the Sheppard and Enoch Pratt hospital in Baltimore Saturday. He had been in ill health for some time and had gone to the hospital for treatment. Mr. Prichard was born at Grayson, Carter county, Ky., December 25, 1869. He attended school at the University of Notre Dame from September, 1886 to June, 1890, when he graduated with the degree of Bachelor of Science, Ashland Independent.

A LUCKY JEWEL.

Opals as gems are said to be unlucky, but a Garnet drew the beautiful library rocker offered by Jake the Hebrew. Miss Garnet Harman, with live tickets in Jake's big sale last Saturday held the winning number.

## DEATH OF DR. C. F. REID.

Dr. C. F. Reid died at Erlanger, Ky., October 7th. The above announcement fills us with surprise and sadness. We have had no particulars of the good man's going away, but supposed that he was on the road to health and renewed vigor. Dr. Reid had done a man's work in home and foreign fields. He was all at home with his Lord's spirit. He did not rest, he burned out. And not in vain. He set many a heart afire for God and souls. In all sorts of work he was approved and not ashamed. In the pastorate, on the platform before great masses of missionary workers, in the pulpit on conference universities, in the councils of church leaders, before our endtimes and boards, as Secretary of the Laymen's Missionary Movement, indeed everywhere he was honored and mastered. It is hard to give up such a leader as Dr. Reid. He had been in health since early in this year and in May, at the annual meeting of the Board of Missions, he was granted an indefinite leave of absence and went to Erlanger, Ky. He returned to Nashville several weeks ago and entered actively upon his work, but he soon realized that his strength was not equal to the task, and only a few days previous to his death went back to the home of his sister, Erlanger, Ky. Central Methodist Advancer.

Dr. Reid preached at the M. E. Church South in this city two or three years ago and greatly delighted all who heard him.

## TO ORGANIZE BIG TRUST CO.

Ben Hogan, for whom legislation was recently passed by the governor of Oklahoma, is organizing a big trust company in Oklahoma City, according to Deputy Sheriff Tom Gallagher, who went to Oklahoma City after Mr. Hogan, who was indicted by a local grand jury on a charge of having obtained money under false pretense, by selling Citizens Bank stock to M. W. Thomas.

When Mr. Gallagher arrived in Oklahoma City, the governor was away and the lieutenant governor refused to act in the case. When the governor returned, Mr. Hogan's attorneys informed him that at the time the offense was alleged to have been committed, Mr. Hogan was in Oklahoma City. The governor asked Mr. Gallagher if he could prove to the contrary. The deputy sheriff told the governor that he did not come to Oklahoma City prepared to testify in the case, but to present his requisition papers, which had been issued by the governor of Kentucky, and that the date on the indictment should be sufficient so far as all requisition purposes were concerned.

The governor, however, declined otherwise, and declined to honor the request of Governor McCrory that Mr. Hogan be given into the custody of the official representative of the county of Boyd.

Mr. Hogan has been joined in Oklahoma City by his wife and son—Ashland Independent.

## POINTS MADE BY SENATOR JAMES.

In the speeches he is making for the Democratic ticket Senator Otis M. James points out that there are two types of bolters, one whom he terms the "courageous bolter" who "goes the whole hog" and votes the Republican ticket, and the other the "cowardly bolter," who stays at home on election day and does his party infinitely more harm than the one who boldly goes over to the Republican camp. Senator James further emphasizes the fact that there never was in all the history of Kentucky a Democrat more fairly nominated and more entitled to the support of every Democrat than Owsley Stanley.

## DYNAMITE CAR WRECKED; DEPOT EMPLOYEES SPRINT.

Winchester, Ky., Oct. 14.—Employees of the Union Station here fled for their lives this afternoon when a C. & O. train crashed into an L. & N. freight car loaded with thirty-five cases of dynamite, and with as many boxes of powder. The wreck occurred near the ticket office, and it looked much as if the derailed dynamite car was going to be jammed into the station. The men in the ticket office didn't wait to see whether the station was hit or not. They were far away before that could have happened. The impact of the collision was heard blocks from the station, but there was no explosion.

## DR. BANFIELD BETTER.

Dr. A. P. Banfield, who was removed to the Huntington hospital on No. 2 Saturday afternoon is reported today as being very much better. Dr. Banfield is suffering from a badly infected limb as a result of fever several years ago, and since which he has caused him much trouble. For a time the amputation of this member was feared necessary, but under the skillful medical attention of his attending physicians, the thought is about abandoned. Dr. Banfield is widely known throughout this section and his legion of interested friends will rejoice to learn of his improvement.—Independent.

## CONGRESSMAN FIELDS SPOKE AT WEBBVILLE.

Judge Redwine and John M. Wanch could not all their engagement to speak at Webbville last Saturday night without neglecting their duties in the Circuit Court at Grayson. The Frazier murder trial was on hands. Congressman Fields went to Webbville by request and the crowd that gathered was not disappointed.

## SENATOR JAMES' GREAT SPEECH

ADDRESSED VOTERS OF LAWRENCE COUNTY AT LOUISA ON TUESDAY.

What was probably the best political speech ever heard in Lawrence county was delivered in the Court House last Tuesday afternoon. The speaker was the senator from Kentucky, Otis M. James. Senator James has a reputation as an orator and statesman which is national, and on this notable occasion he was at his best, notwithstanding the fact that for many days and nights he has been spreading the cause of Democracy and advocating the claims of the Democratic State ticket over nearly the whole Commonwealth of Kentucky. He dealt not only with State issues but with national questions as well, defending and enlarging Governor McCrory and lauding the administration of President Wilson in the most glowing and eloquent terms. Senator James is justly proud of the fact that he has frequently had private audience with the President regarding the political business of the country.

It was to the condition of affairs in this State that Senator James addressed himself, and he did it so effectively and convincingly that, if he spoke elsewhere as he did here, that he must have won hundreds of votes for the ticket he is so ably championing. In argument the Senator was unanswerable, in his showing by fact and figures he was irrefutable, in sarcasm he was scintillating, in logic he was faultless, and in a sane eloquence he was surpassing. It is easy to see how a speech like this could cause men to say, as many did, "That was the best speech I ever heard." But the fact is, no hastily written notice of the Senator's splendid effort can do it justice, and we refrain. To appreciate it the speech must have been heard.

Senator James had a fine audience, in size and quality. The weather was inclement and the notice of the meeting very short, but Louisians turned out in large numbers and voters from every part of the county were present. Many ladies were present and the public school was dismissed for a couple of hours in order that the pupils might listen to a Kentucky orator.

That old wheel-horse of the Democratic band wagon, J. Q. Lackey, presided over the meeting, and C. H. Bromley introduced the distinguished speaker.

## CAPT. STONE NAMED TO HEAD CONFEDERATES IN KENTUCKY.

Capt. William J. Stone, State Pension Commissioner, was elected commander of the Kentucky division of the United Confederate Veterans at their annual reunion at the Confederate Home at Pewee Valley.

Brigade commanders were chosen as follows: First, James Rogers, Bourbon county; third, Geo. Thomas D. Osborne, Louisville; fourth, Geo. W. Taylor, Nicholasville. The absence of a second brigade commander was caused by the elevation of Col. Stone to the command.

Following the meeting a dinner was served by the members of the Confederate Home Chapter, Daughters of the Confederacy.

## PROBABLY FATAL ACCIDENT.

Nearly Wellman, age about 40 years, fell from a work car of the electric street line in Huntington on Wednesday and received injuries from which it is said he can not possibly recover. He was an employee of the car company and was at work when the accident occurred. He fell on his head and fractured his skull. Wellman is a son of James Harvey Wellman, of this place, and has a wife and several children.

## THIRD ROW SENATE SEAT ASSIGNED TO BECKHAM.

Washington, Oct. 16, Sent No. 73, in the United States Senate chamber, was assigned yesterday to Senator Beckham by the sergeant-at-arms. It is the end seat nearest the Senate lobby in the third row from the Vice President's desk on the Democratic side, and was occupied during the last Congress by Senator White, of Alabama. Senator James will continue to occupy seat No. 89, in the rear row of the chamber. Senator Underwood has been assigned to seat No. 95, occupied by Senator Camden during his service in the Senate.

## CONSULTS A SPECIALIST.

Mr. and Mrs. George Gunnell, Sr., and Miss Amanda Yates left yesterday on C. & O. train No. 3 for Cincinnati to consult a specialist in regard to the health of Mr. Gunnell.

For some time past the health of Mr. Gunnell has been on a gradual decline, thus causing his family deep concern, so they placed him in the care of the best physicians that can be secured with the hope of a speedy recovery.—Independent.

## TIMBER SUIT SETTLED.

The Kentucky Coal Lands Company of New York won its suit in the Federal Court to-night against the General Development Company of Pennsylvania over an eight-mile boundary line of an immense timber and mineral tract in Letcher-co., near the Perry line. The suit involves many thousands of dollars worth of land, and has been on trial nearly two weeks.

## FINE DONATION PARTY.

On Monday last the Rev. Olin Hamilton, pastor of the Baptist church, and Mrs. Hamilton had the surprise of their lives. The aforesaid members appeared at the parsonage early in the evening, each one bringing something good to eat. They came and brought and deposited until the place resembled a good sized wholesale grocery. Their donations were not measured by pounds but by bags and bushels, and they consisted of almost every conceivable thing comforting to the inner man and woman. The high cost of living will not worry the recipients of so much food for many a day. It was most excellent in quality and abundance. In quantity, and the worthy minister and his helpmate are appreciative and very grateful to every one who had a part in the liberal donations.

In this connection the publication of some facts and figures concerning Mr. Hamilton may be interesting. He is the youngest Baptist minister in point of years in the valley. He is also the youngest Baptist minister in point of years in the ministry in the valley. He is the oldest Baptist minister in point of location in the valley, starting in as 4th year. He is the oldest pastor in location of any denomination in Louisa. Has spoken in 19 different Baptist pulpits in Eastern Kentucky.

## REFORMATORY.

Frankfort, Ky., Oct. 16.—Twelve thousand gallon cans of vegetables have been put up at the reformatory farms for the enjoyment of the prisoners this winter. The store includes corn, apples, tomatoes and beans. Warden Wells said the supply represents the equivalent of three months' provisions. The warden secured the assistance of an expert canner and found among the prisoners, Robert Sanders, who has had experience in canning plants and he was put in charge of the work. The reformatory in the next few months probably will reach a record breaking production, possibly 1,500. At present there are 1,440 occupants for the 1,152 cells. The highest population has ever reached under Warden Wells has been 1,447.

## DEATH OF MRS. MILLARD PETERS.

Mrs. Millard Peters, aged 26, died at her home near Clifford at an early hour Thursday morning after an illness of two weeks of typhoid fever. She is survived by three children, the youngest a child of six months. Her husband is also living. Mrs. Peters was the youngest daughter of Albert Ratcliff, who died about two years ago. Burial will occur on Friday at the old Ratcliff graveyard.

## LIFE SENTENCE GIVEN ROBT. FRAZIER AT GRAYSON

MERCHANT CONVICTED OF MURDERING HIS NIECE IN CARTER COUNTY.

Robert Frazier was sentenced to the penitentiary for life at Grayson Monday for the murder of his sister's daughter, Stella Kenney, age 17, of Fleming-co. Frazier was a merchant and quite prosperous. His niece had been visiting at his home for two or three months and on the second of last May he started by a buggy to take her to Fleming-co. Her dead body was found next day by the roadside near Olive Hill. Frazier claimed they had been assaulted and robbed. Proof showed that the girl was in a delicate condition and that Frazier was responsible. A letter written to a cousin, Dr. Stambaugh, of Floyd-co., was very damning to Frazier. This was the second trial, the jury having failed to agree in the first trial. Frazier was a native of Floyd-co. His father sold his coal lands there for a large sum a few years ago and moved to Fleming-co.

## BUT THE PRESIDENT DID "SUITOR."

And now comes none other than F. J. Updike, of West Virginia and modestly deposes that he was the first sweetheart of the president's daughter, Mrs. Galt, having bestowed upon her certain rosy cheeked apples during boyhood, and accompanied them by divers jocular smiles, and he further deposes that said Mrs. Galt, or, as the party of the second part was then known, Miss Bolling, looked none too favorably upon him. In other words, he was her first suitor, but didn't, so Mr. Wilson needn't be expected to work up much of a case of jealousy.

## R. W. EMBREY DEAD.

The message reached here late Friday afternoon that Mr. R. W. Embrey had passed away that day at his home in Graham, Va. Mrs. Frank Tyree, a sister-in-law, was at the Embrey home at the time. Mr. Embrey had for many months been in failing health and his death was not unexpected by relatives and friends. He was widely known in this city, where he resided for many years and where he married his first wife, Miss Lattie Hutchison, who preceded him in death several years ago. He leaves besides a widow, two daughters, Miss Embrey Derleek and Miss Katherine Embrey—Sandy Valley Call.

## NONAGENARIAN PASSES.

Marysville, Ky., Oct. 18.—Ezekiel Stone, ninety-one years old, said to be the oldest native-born resident of Lewis-co., died at his home in that county after a short illness of infirmities incident to old age. He was the father of Sheriff W. T. Stone, of Lewis-co., and leaves several relatives in this city.

## SHOTS ARE FIRED ACROSS THE RIVER IN THE DARKNESS.

Brownsville, Tex., Oct. 18.—The first firing across the Rio Grande in more than three weeks occurred at 4 o'clock Sunday morning near the Mercedes pumping plant, thirty-five miles above here, when Mexicans fired from thirty-five to forty shots. The American soldiers returned the fire, but no one was hurt.

Capt. Hassan, of the Sixth Cavalry, in command there, reported to Fort Brown that a Mexican dance was in progress on the Mexican side where the shooting occurred, and that he did not believe the occurrence serious.

Col. A. P. Blockson, commander of the cavalry, reported the occurrence to J. J. Garza, Carranza consul here, and to J. H. Johnson, American consul at Matamoros, with requests that an investigation be made by Gen. Eugenio Lopez, commander at Matamoros. Col. Blockson continues to spread his cavalry along the Rio Grande in the district affected by the raids. Constant vigilance is being maintained by military authorities.

## MASONIC GRAND LODGE IN ANNUAL SESSION.

Louisville, Oct. 19.—The 115th session of the Grand Lodge of Kentucky Masons convened at 10 o'clock Tuesday morning with the usual impressive Masonic ceremonies. Grand Master George B. Winslow, of Carrollton, was in the chair, and Deputy Grand Master T. J. Adams, who, at the end of the session, will succeed as Grand Master, was at his right hand, according to the Masonic custom.

Mr. James N. Saunders, of Stanford, was in the Grand Senior Warden's post, while Earl W. Weathers, of Elkton, was in his place as Grand Junior Warden. Mr. Saunders will become Deputy Grand Master and Mr. Weathers Grand Senior Warden. As usual, there will be a spirited fight for the post of Grand Junior Warden, that office becoming Grand Master in three years without opposition.

There was an unusually large number of Past Grand Masters of the State seated on the stage, and over 1,000 delegates were in the convention hall.

## M. E. CHURCH.

The friends and members of the M. E. Church surprised the pastor and wife last Friday evening in paying a visit to the parsonage and left a nice donation, for which we are very thankful.

Sunday School 9:00 a. m.  
Prayer 10:45 a. m.  
Prayer meeting Wednesday 6:30 p. m.

Rev. W. H. Davenport, the District Superintendent who is here to hold the first Quarterly Conference and will preach at 6:30 p. m., and the Sacrament will be administered also. Will preach Monday at 6:30 p. m. and hold business session of conference.  
N. H. YOUNG, Pastor.

## COURT OF APPEALS.

Consolidation Coal Co. vs. Vanover, etc.; Letcher; reversed.  
Williamson vs. Morris; Pike; reversed.  
Rice vs. Rice, Johnson; affirmed.  
C. & O. Ry. Co. vs. Hunter's administrator, Floyd; agreement filed, appellee to November 1 to file brief.

## MRS. MCCLURE GROWING WORSE.

Mrs. Jane McClure, whose serious illness was noted by the NEWS last week, is steadily growing worse and her death may occur almost any time. She has been brought from Paintsville, where she was when the NEWS article of last week was written, and is now at her old home at Callins. Her disease is what is known to physicians as senile gangrene. All that the best care and attention can do is being given her but her recovery is hopeless.

Misses Emma and Eulah Collins and Miss Leah Gault were guests of honor at an oyster supper at the Louisa Inn given by J. Iersky last Friday evening. It was a pleasant occasion, and was appreciated by the young ladies who were the recipients of this attention. Their going away is regretted by those who know them and many wishes for their return are expressed.

## MARRIAGE PERMITS.

Korna O. Ratliff, 24, Pike-co., and Pauline Irish, 22, Catlettsburg.  
George Bryan, 26, Zella, Ky., and Goldin Bellamy, 23, Adeline, Ky.  
Lindsey Sperry, 23, Boyd-co., Ky., and Mary Moore, 23, Lawrence-co., Ky.—Catlettsburg Item.

## M. E. CHURCH, SOUTH.

L. E. McElowny, Pastor.  
The following order of services Sunday October 24:  
Sunday School 9:30 a. m.  
Junior League 2:30 p. m.  
Senior Epworth League 6:00 p. m.  
The pastor will have for his subject 10:30 a. m., "The Difficult Commandment." 7:00 p. m., "Some Losses and some Gains in Religion."  
Everybody welcome to all the services.

Not until he had driven three miles on the Guyan river road, did Herbert Craig, discover Miss Annie Adkins, who was riding on the rear seat of his motorcycle, was missing, according to a report by Patrimonia Harrold.

The girl was picked up in July-ss, Graydonette, after she had fallen from the machine. Miss Adkins was severely injured about the arms and legs. Friends of Craig followed him in motorcycles and told the boy Miss Adkins had been killed. He was overcome and had to be brought back to the city.—Huntington Herald.

WEST VIRGINIA  
ITEMS OF NEWSTwo Wayne Lads  
Pass Examination.

Charleston, W. Va., Oct. 12. Final certificates have been issued to fifteen out of 32 men who took the examination on September 8, at Morgantown, for license to practice law in this state, according to an announcement made by the state supreme court today.

Among the fifteen who were awarded certificates were C. W. Ferguson and J. W. Copple, both of Wayne co.

## Close Deal on Coal Land.

Charleston, W. Va., Oct. 12. A deed was recorded here today showing the transfer of more than 12,000 acres of coal land on Cabin creek in Kanawha county from the Williams Coal Company and the Cabin Creek Economy Coal Co. to the Shook Land Co.

The consideration was 100 six per cent first mortgage bonds of the latter company, valued at \$100 each and 200 shares of stock in the Shook company.

48 Indictments in First  
Batch From Grand Jury.

The October term of Circuit Court opened at Morgantown, West Virginia, Monday, October 12. After less than two days of deliberation the grand jury made its first report and returned 48 indictments, including 31 for misdemeanor and fourteen for felony, owing to the inability of Attorney John Maroon, of the defense, to be present the second trial of Millard Hale for the killing of Leslie Adams, the first trial of which at the last term of court resulted in a hung jury was not completed on this week but was set for next Monday, October 18.

N. & W. To Co-Operate With  
Wayne County Farmers.

President I. E. Johnson, of the Norfolk & Western Railway has written a letter to the governor of West Virginia, which has been made public, in which the railway president asks for suggestions by which the company can co-operate with the farmers and stock raisers of West Virginia in the development of the various agricultural industries.

Representatives of the road, co-operating with the county agricultural agent, have been doing a great amount of constructive work at Wayne co. and it is proposed to extend the work into all parts of the state traversed by the N. & W. road.

Johnson said the management of the road appreciates the advances which will accrue to the road from an increased traffic in farm products and as a result of the development of the farm lands and for that reason will do everything they can to encourage the work.

BREAKS A COLD IN  
FEW HOURS--TRY IT!FIRST DOSE OF PAPE'S COLD  
COMPOUND RELIEVES ALL  
GRIPPE MISERY

Do I stay stuffed-up, cough blowing and sneezing? A dose of "Pape's Cold Compound" taken every two hours until three doses are taken will end gripe and misery and break up a severe cold either in the head, chest, body or limbs.

It promptly opens clogged-up nostrils and air passages, stops nasty discharge or nose running, relieves sick headache, dizziness, feverishness, sore throat, sneezing, soreness and stiffness.

"Pape's Cold Compound" is the quickest, surest relief known and costs only 25 cents at drug stores. It acts without assistance, tastes nice and causes no inconvenience. Don't accept a substitute.

## MOONLIGHT CURRICULUM

The curriculum of the Moonlight Schools has occupied the best thought of educators during the past few months. The reading will be based upon forestry, good roads, horticulture, agriculture, domestic science, health and sanitation, voting, banking, taxation and such things as the State has through its various commissions and departments been trying to impress upon the people.

As men and women learn to read they will become immediately familiar with the methods and movements which make for constructive work in the State acquiring the information most necessary to their well being and to the welfare of the State even as they acquire the art of reading. Drills in history—essential facts only, and geography and English will be part of the course, while the civil government will be a drill on laws most commonly violated. Writing will be a feature and will be taught in unusually attractive ways, especially devised for the moonlight schools. Any citizen, whether educated or uneducated, would profit by taking such a course.

## IN MEMORY.

In sad and loving remembrance of our dear papa, John H. Boggs, who died Sept. 13, 1915. Our hearts and home are broken, our home is home no more, since our darling papa left us, left as forever more. You have left us and we miss you, only we miss you from home. A shadow over our life is cast we miss the sunshine of thy face, we miss thy kind and willing hands, thy fond and earnest care. Our home is dark without thee, we miss you everywhere. Gone, but not forgotten. A place is vacant in our home which never can be filled. All was done that loving hands could do, but it was the Lord's will to take him. We hope he is sleeping in Jesus' arms. He trusted in his Lord, and loved to go to meeting so well. He went every chance as long as he was able. Won't there be a happy meeting when we all get there, we leave a wife, three children, father, two brothers, two sisters and a host of friends to mourn his loss. HIS LOVING WIFE & CHILDREN.

Oscar Endicott came down Sunday from Prestonsburg to visit his parents.

## IN THE STOCK BARN.

Take all manure and soiled litter out of the horse stable each morning. Much of the straw can be dried during the day on a rack and used again.

Keep a trough or tank of clean water in every pig pasture.

The sheep flock must have shade and shelter during the hot days of summer. Be sure it is provided.

Separate the pigs in uniform lots. The larger always rob the smaller ones.

Get all wethers and lambs in the market as soon as fit. A good article never goes begging in a good market.

More than 500 veterinary surgeons have signed a petition condemning the tight checkrein as painful to horses and productive of disease.

STAMPING OUT FOOT  
AND MOUTH DISEASE

(Prepared by United States department of agriculture.)

Farmers, cattle owners, cattle dealers and county and state live stock sanitary officers are being urged by the United States department of agriculture to continue further effective co-operation to measures that will assist in keeping the foot and mouth disease under control. It is highly important that the seriousness of this most contagious of animal diseases shall not be disregarded, and if every one will exercise a little patience as to necessary quarantine regulations and will co-operate heartily with the state and federal authorities it may be possible to say in the near future that the United States has been entirely freed from this plague, which so seriously threatened our great live stock industry.

Cases of foot and mouth disease are still reported from time to time, and as long as these sporadic occurrences continue the epidemic, which first made its appearance in Michigan in 1911, can not be considered entirely under control. Unhappily now under the work of eight months and force the country to face once more the greatest danger that has ever threatened its live stock. By the immediate slaughter of all animals known to have been exposed to the infection, by the thorough disinfection of all premises and articles that might harbor the contagion, by the imposition of federal and state quarantine, and by close inspection of cattle for shipment the disease has been brought under fair control. These

DEVON BULL.

measures must be persisted in, however, until the last atom of infection has been destroyed beyond a doubt.

Farmers and stockmen are unquestionably inconvenienced by the quarantines which restrict and regulate the movement of their stock. The necessity for these regulations cannot be realized until the extreme contagiousness of the disease is understood. Once a single animal of the herd gets foot and mouth disease or where an infected animal is introduced into a clean herd every animal in that herd is almost sure to contract it. Cattle, swine, sheep and goats are the chief sufferers, but the disease may be conveyed not only by them, but by any article which has come into contact, no matter how indirectly, with an infected animal. Men, women and children may carry the contagion on their shoes, clothing and hands. Dogs, cats, rats, chickens and pigeons may pick it up from the ground and carry it to another farm. Raw skimmilk may transmit the disease, and hay and manure may easily be infected and made dangerous.

In many cases farmers who have been induced by curiosity to inspect their neighbor's stricken herd have carried the contagion back with them to their own stock. In short, the foot and mouth disease is the most contagious of all animal diseases. To be effective against it a quarantine must be not only proportionately strict, but it must be continued until all danger of spreading the disease has passed. A quarantine that is lifted too soon is as useless as one that is not enforced.

Not only live stock, but such articles as hides, hoofs, skins, hair, horns, hay, straw and similar fodder, manure, litter, etc., may convey the contagion. In consequence the exportation of such articles without previous disinfection is prohibited in the exposed and closed areas. In the case of animal products, however, taken from animals before Aug. 1, 1914, and stored since that date away from all live stock, shipment without disinfection is permitted on affidavit that these conditions have been complied with. Hay and straw, harvested before this date east of the Mississippi and before October 1 west of the Mississippi and stored in places away from live stock and not within five miles of any premises infected with the disease, also may be shipped on the same conditions. Other hay and straw must be first disinfected with formalin gas.

## REGARD FOR THE LAW.

Ignorance of the law is no excuse and disregard of the law is a crime. When laws are so obvious as to afford excuses for non-compliance they should be changed, and the people have this right. "If your right hand offend you, cut it off," was no idle injunction, but means the offender should be removed rather than the mutilation of the member.

Our Tax Laws are distasteful and detrimental, but the remedy should be to amend them instead of allowing them to undermine the morals of the people by openly disregarding them.

The successful evasion of one law may encourage the violation of others and in time breed a contempt for all laws.

While every citizen owes obedience to the laws, the laws should be made fair and equal to every citizen.

The Tax Laws are neither fair nor equal and are productive of discontent and ill humor and if for no other reason than this should be changed.

## UNIFORM TAXATION.

Property differs so greatly in character and earning power it has always been impossible to tax the various kinds uniformly. Every attempt to tax movable property the same as immovable property has failed and will always fail. Two wrongs do not make a right, and when assessors find it impossible to discover the owner of movable property and undertake to square things by lowering the assessment of immovable property, there is no right or justice in it and everybody suffers in mind and matter. The more stringent the law to unravel movable property the faster it moves and hides, and this fact is so well established the assessors in most counties let movable property go by default. So-called Uniform taxation is a delusion and a snare. It may suffice to fool the ignorant, but the knowing ones just laugh at it. This is rough on the poor man whose all is in sight and unmovable, and is also tough on the rich man whose wealth moves and hides, and this fact is so well established the assessors in most counties let movable property go by default. ## DEMOCRATIC CANDIDATES FOR CITY COUNCIL.

W. E. Queen G. R. Burgess  
H. G. Wellman C. B. Bromley  
G. S. Wilson N. D. Waldeck.

The Democratic ticket for City Council of Louisville is a good one. The names are at the head of this column.

Vote for Rev. H. B. Hewlett for Circuit Court Clerk. He is conducting the office in the right way and deserves reelection.

Every Democrat in Lawrence county who goes to the polls Nov. 2nd will vote the Democratic ticket, and every one of them should so.

Judge Redwine has been twice appointed to short terms as Circuit Judge. He is now asking the voters for an endorsement at the polls for the first time.

Miss Cora Dow, a noted business woman of Cincinnati, is dead. At one time she owned 11 drug stores in the city where she lived. She was a thorn in the flesh of her competitors.

Contracts for sixteen submarines and six destroyers, to cost \$4,825,413, were awarded by the Navy Department, and go on record as the biggest step of the kind in the history of the country.

Gen. Carranza will be formally recognized as Chief of the de facto government of Mexico to-day, details having been agreed upon at a conference of the Pan-American conference yesterday.

It would not hurt some newspaper headline artists to sit behind a spelling book and grammar a few minutes daily. Weakness along this line is not by any means confined to the rural roosters.

Judge Redwine and Commonwealth's Attorney John M. Waugh has been prevented by their duties in court from making a canvass of the district. It is in their credit that they stick to their post of duty and will not lose them any votes.

There is not a more competent prosecutor in Kentucky than John M. Waugh. He has both the ability and the experience necessary to properly prosecute lawlessness and he also has the courage required for this responsible position.

From the Republican headquarters in Louisville came the report that the Republicans are counting on Democratic over confidence and apathy this year to land Ed Morrow under the wire a winner.

Vote early, Democrats, and show 'em where they're wrong.

The managers at republican headquarters in Louisville have instructed their workers in the rural districts to use every effort to make a gain of at least four in every precinct in the state, which they say, in addition to the democratic apathy will insure the election of the republican ticket. Democrats, do you catch on?

In one of his speeches Mr. Stanley says: "The eyes of the President look down upon you. Where, of where, is the democrat at this crucial hour, who will prove recalcitrant to his mighty chief? Inspiring as a candidate, greater as a patient and constructive statesman, he is greatest as the wise, fearless, far seeing diplomat, preserving at once inviolate the honor of his country and the peace of half the world."

Senator Ollie M. James made a big hit at Louisville and Pikeville, as he does at every other place he speaks. One of the forceful things he said that was greeted with vociferous applause was that the United States is blessed beyond measure by having Woodrow Wilson for President, at a time when the war spirit is running so high in the world. He declared that under like conditions "Roosevelt would have bungled into war and Taft would have bungled into it."

The speakers' bureau of the Democratic State headquarters failed to notify any one in Lawrence county about the appointment of Senator James to speak at Louisville on Tuesday of this week. No announcement of the date was seen in any of the city or local

newspapers. As Senator James passed through here on his way to Pikeville Sunday evening he told some one that he was scheduled to speak at Louisville on Tuesday. Local Democrats then got busy and advertised the fact as well as possible on Monday. It was a regrettable and unfortunate oversight.

Mr. McCleskey, in his speech at Lawrenceburg, declared that the result of the primary had not changed his views on prohibition, and that he expected some time in the future to see a Statewide amendment submitted to the people.

"But," he declared, "so far as this election is concerned this question has been settled. The issue was submitted to the Democracy of the State in the primary, and a majority decided that this was not the time to submit the question. I entered the primary in good faith, and I accept the result as a good Democrat ought, and shall give the whole ticket my loyal support. 'Majority rule' is a cardinal principle of Democracy, and for this campaign the majority has spoken, and every Democrat should vote the straight ticket."

When you go to vote on November 2nd remember the two amendments to the constitution. They read as follows:

## Constitutional Amendment No. 1.

Are you in favor of the proposed Constitutional Amendment which will allow the use and employment of convict labor outside of the walls of the penitentiary for the purpose of constructing or reconstructing and maintaining public roads and bridges and preparing material for public roads and bridges, and work on the State farm or farms?

## Constitutional Amendment No. 2.

Are you in favor of the proposed Constitutional Amendment to Section 171 of the Constitution of Kentucky, which proposed amendment will extend the power to the General Assembly to enact laws to divide property into classes for the purpose of taxation and to determine what class or classes of property shall be subject to local taxation, and to exempt from taxation bonds of the State and of Counties, municipalities, and taxing and school districts, and which amendment provides that laws passed pursuant to said amendment shall be subject to the referendum power of the people?

It is a great thing to be lucky. Some men are born lucky and are followed by luck throughout their lives. There is usually a happy lot.

But there are other men upon whom fortune does not smile so brightly. What they get out of the world they get mainly through hard work, persistence and pluck. When men of this type win it is usually because, in addition to brains, energy and perseverance, theirs is a lion-hearted courage. They discount luck, by sheer force of character they curb Dame Fortune, tackle her at her own favorite game and beat her.

It has been said that life does not consist of holding a good hand, but of playing a poor hand well. Thus the man who takes fate in his own hands, counts not on good luck nor on bad luck, but loses his hopes on hard work and bull dog courage is a better man to bank on for nine weeks out of every ten set for him than the lucky man. When little fortune frowns, the man upon whom she has been wont to smile is too often at sea. Accustomed to the favor of the Gods, he is apt to get lost without that favor and to wonder about as a ship without a rudder, a boat without an oar.

No one can accuse our friend A. O. Stanley of being the particularly favored child of fortune. He is not a luckless hoodoo, but nine-tenths of what he has got out of the world he owes to pluck, plus native ability and diligent application.

As a barefoot boy he followed it reaper in vacation time, tending wheat bundles at fifty cents a day. As a young man he taught school to earn money to prepare himself for the law. As a young lawyer he battled his way to the top of the bar of Kentucky, solely on his own merits. In the legislative halls in Washington he continued to show the same driving power. Knocked back now and again, he drew breath and plunged in again. He has arisen to crisis after crisis instead of being overwhelmed by them.

Is it better to have, at the helm of the ship of state of Kentucky a luck-conquering man of the Stanley type or a child of fortune who wins only when fortune smiles? We think the voters of Kentucky will know how to answer this question on November 2.

You never can tell what you are going to get when hunting. Congressman Fields came down to Cynthiana last week hunting for votes for the State ticket and dashed a covey of seven candidates for postmaster.—Cynthiana Democrat.

Following the custom of two previous State campaigns, the Democratic managers have under consideration the plan of sending out a special campaign train during the closing week of the tight Tentative plans provide for at least two days' instruction in Eastern Kentucky and the same in the territory west of Louisville. If the "Democratic Special" is run it will have on board the candidates for State officers, the United States Senators, Congressmen, Gov. McCreary, and several national party figures. Battles are contemplated wherever the train makes stops and in this way it is expected to close the campaign in a wave of enthusiasm. While a campaign train has never been run in Eastern Kentucky, this method of arousing the Democrats has proved eminently successful in the western section of the State and served to bring out a full vote. The managers believe that a "Democratic Special" run through Eastern Kentucky would be worth thousands of votes to the ticket.

## She Remembered.

Aunt Jane is quite absent minded and when she started on a short journey, a few weeks ago, each member of the family labored to impress on her that she must not forget any of her parcels or belongings. When she reached her destination she wrote at once of her safe arrival and closed with the following postscript:

I remembered what you said about forgetting and tried to be as thoughtful as possible. I neglected, though, to have my trunk rechecked at the junction, and think I must have left my lunch at the window when I bought my ticket.

I must have forgotten my umbrella, too, when I changed cars, but I cannot imagine what could have become of my shawl. I suppose I neglected to put my comb and brush back in the bag after using them, but I feel confident that some one stole my jet brooch, as I do not see how I could possibly have mislaid it.

I got on quite nicely, though, and had a real pleasant journey.—Youth's Companion

## Double Duty.

An English sportsman—they call a man sportsman in England when he has money and nothing to do—has hit upon a very clever idea. He owns an automobile and a yacht. When he wants to use his yacht he runs the automobile aboard and lurches it to the propeller. Then he tips off the self starter, the auto gets busy, the propeller churns the water, and the plain yacht becomes a fast motorboat.

When the sportsman gets where he wants to go he ties up the yacht, runs the auto ashore and gigly whizzes along the good roads. Of course, to be perfectly fair about it, the sportsman should take the yacht aboard the auto when he is on land, but up to the present time he has shown no willingness to display any such form of altruism. He's got a good idea, however. Pampered autos have too long been permitted to go aboard as stowaways. It's high time they were compelled to work their passage.—Cleveland Plain Dealer.

## An "Absent Minded Beggar."

In "Bohemian Days in Fleet Street" is this anecdote of Phil May, the artist:

Phil was at one time ordered horse exercise. It was thought that this mode of progression would insure his safe and early return to the domestic hearth. But it did not always work.

One afternoon Phil was riding home from Fleet street to his house in Kensington, and, in passing through Leicester square, thought that he would drop in at the Cossy club. . . . He gave his horse in charge of an archer to hold for him. It was then 4 in the afternoon. At 2 o'clock in the morning a police constable entered the club to inquire whether one of the members had left a horse in charge of a boy outside. The secretary remembered that May was the proud possessor of a steed. But May had left the club at midnight. He had forgotten all about his horse, and had driven home in a hansom.

## The Creative Impulse.

The creative impulse does not itself know the next step it will take or the next form that will arise any more than the creative artist determines beforehand all the thoughts and forms his inventive genius will bring forth. He has the impulse or the inspiration to do a certain thing, to let himself go in a certain direction, but just the precise form his creation will take is as unknown to him as to you and me. Some stubbornness or obscurity in his material, or some accident of time or place, may make it quite different from what he had hoped or vaguely planned. He does not know what thought or incident or character he is looking for till he has found it. He has risen above his mental horizon. So far as he is inspired, so far as he is spontaneous. Just so far is the world with which he deals plastic and fluid and indeterminate and ready to take any form his medium of expression—words, colors, tones—affords him. He may surprise himself, excel himself; he has surrendered himself to a power beyond the control of his will or knowledge.—John Burroughs in the Atlantic.

## HOLDS CITY BOY TREATED BEST.

Frankfort, Ky., Oct. 15. The High School auditorium was crowded this morning when President H. C. McKee, of Frankfort, called the Ashland District Educational Association to order. The attendance, numbering close to 500, is the largest in the history of the association.

## Country Boy Mistreated.

T. J. Crain, supervisor of rural schools, spoke in the morning on "The Country School of To-morrow," and declared that today the average country boy is not as well educated as his average city boy, that his eyes are as good, that the schools have not trained him for his particular place in American life, though it is on him that the burdens of the future are to fall. Rural poverty, rural greed that has been negligently toward the schools, through lack of a sense of responsibility and petty politics he blamed for this condition.

Prof. McHenry Hheads, State Supervisor of High Schools, in an address on education for larger service, took occasion to defend the school system from the destructive criticism of many writers of today, pointing out that the critics themselves are the products of the system; that the progress and development of present-day civilization are the results of educational work, and that the good, which exists, has been produced by it, and the evil exists not by reason of it, but in spite of it, the system.

## Asks Constructive Criticism.

That it can be improved and is being improved he admitted; but insisted that constructive criticism that would build upon the good of the system and not destroy it, is welcomed.

## Praise Moonlight Schools.

Addressing the association this afternoon on the subject of "Moonlight Schools," Congressman J. Campbell Cantrill said that he considered the work of eradicating illiteracy, instituted by Mrs. Corn Wilson Stewart, the most important project undertaken in the Commonwealth of Kentucky, and urged the teachers to co-operate in an effort to eradicate it from their own districts in order that the time may speedily come when there will not be an adult person in the Seventh congressional district unable to read and

## write.

He paid a personal tribute to Mrs. Stewart, and said as usual the burden falls upon the teachers, who will be amply rewarded in the future. No one, he believes, would object to increase of taxes for schools and better school houses and equipment and better pay for teachers.

## LIMING SOILS

Wherever in the Middle West it has been difficult for several years in succession to secure a satisfactory stand of clover or any other legume it is highly probable that applications of ground limestone would pay. Most soils that have been heavily cropped for years, and shown an increasing infertility to the clovers are sour, and deficient in calcium. Most long-used agricultural soils are in this condition. They should be limed. Even in those regions where land is underlaid with limestone, experience has shown that applications of the ground rock are required in many cases to correct soil acidity.

Plowing and cultivating, which subject the soil to weathering processes, facilitate and hasten the loss of calcium, which in solution runs off in surface water and seeps in underground flows. Moreover, there is of course a small loss of the element in the crop removed. Unplowed or permanent pasture lands hold fast to the calcium, but cultivation depletes the stock of it. Therefore, as we have said, most soils, especially those which have been regularly cultivated every year or two, need liming. Where this is the case, and ground limestone can be bought at a moderate cost, it would pay to make heavy initial applications, and so be done with the job for years.

## FORTUNES IN ARIZONA FARMS.

In the Yuma Valley, Yuma, Arizona, where the U. S. Government has constructed the greatest irrigation project in the world farmers are reaping big crop fortunes. This is possible because of unlimited water supply, superior soil and climate which produces crops twelve months in the year, continual spring growing and harvesting season. A FARM FOR SALE:—40 acres 3 miles from city of Yuma, 4 miles from church, 1/2 mile from general store, 1/2 mile from good graded school, located on fine boulevard, 20 acres alfalfa and seed crop this year from this 20 acres sold at the machine of the land for \$1800.00, and the hay balance of the year fell 30 Holstein milk cows and other stock on farm which ranked on the remaining 20 acres of meadow, and besides feeding the stock sold from the same 20 acres \$100 worth of hay. These cows, bought on time paid for themselves in just two years. The ranch is yours for \$1800, when it is really worth twelve thousand dollars. The only reason for selling is the owner, a widow, 73 years old, desires to retire for her declining days. We have a hundred bargains for you. ### WHAT INTELLIGENT

#### LABOR CAN DO.

Mr. Clinton S. Kimes, who spent some time in this city last summer, sends the following interesting note from Wolfe county:

J. B. McCoy, aged 39 years, has about 200 square feet of land. On 80 square feet of this he raised and sold over \$100.00 worth of garden products. He rented 40 acres and raised 25 bushels of shelled corn.

Mr. McCoy has 50 hens and in 60 days they laid 1575 eggs. They are common hens, but well fed.

One cow produced 127 pounds butter. He keeps two cows and sells lots of cream and butter. About 7 years ago Mr. M. L. Conley gave Mr. McCoy the privilege of erecting a 4-room cottage on this place, near Heleehawa Station, Wolfe county. He has it fenced and it is quite a beauty spot that can be seen as trains pass by. This shows what can be done by intelligent industry and good management.

Paintsville, Ky., Sept. 28, 1915.

To Whom It May Concern:

I take pleasure in saying that I have known W. T. Cain, of Louisa, Ky., who is now a candidate for Commonwealth's Attorney on the Republican ticket, for thirty years, and have been intimately associated with him from boyhood, and have been associated with him in an official way. He was County Attorney of Martin county while I was Circuit Judge, and he has practiced in my court for twelve years. He is sober, industrious and a good lawyer. He is well qualified to fill the office of Commonwealth's Attorney. He is fearless and honest, and will take care of the interests of the people, if elected.

A. J. KIRK, Judge of the Twenty-Fourth Judicial Court of Kentucky.

Again we have the pleasure of announcing the production of the great Ladies Tailor, Mr. George Lear, who will be at Mr. E. E. Shannon's place of business in Louisa on October 22 and 23. Mr. Lear will have on display for sale, the very latest creations in suits, coats, dresses, frocks, blouses and waists. Individually stamped on every garment, combined with the highest standard of quality and price. Ladies, come and look at this display whether you want to buy or not. It will be a pleasure to show the beauty of these garments. 21.

JNO. F. BUTLER, Ex. Judge 35th Judicial District.

Pikeville, Ky., Sept. 28, 1915.

To Whom It May Concern:

I understand that W. T. Cain, of Louisa, Ky., formerly of Martin county, Kentucky, has been nominated for Commonwealth's Attorney in the 32nd Judicial District. I wish to say that I first met Mr. Cain twelve years ago at my first term as Commonwealth's Attorney in the 24th Judicial District. He was then county attorney of Martin county. He served during four years of my time as such. I therefore had an occasion to observe his ability, and I wish to say for him, that I regard him one of the strongest prosecutors I know of. My only wish is that all the districts that choose timber as Mr. Cain. I trust that he will be elected. You will find in him an able man, honest, fearless and competent. With kindest regards, I am yours truly.

Can You Spare a Minute?

Here's a Brief Statement of Facts For Your Consideration

We Sell Groceries We Want Your Trade, but if We Cannot Give Full Value For Every Penny We Would Be Ashamed

# Lay-to for a spell and swing on this:

You'll start an old-pal-party via a pipe or a makin's cigarette quick as a flash, as soon as you realize it's a live bet to let your good money rub up against some Prince Albert tobacco. Why, it's like beating back to the bushes for old-home week, P. A.'s so friendly, so chummy-like.

You see, Prince Albert lets you hear the song of the joy'us jimmy pipe and the makin's cigarette all the day long! The patented process takes care of that—and cuts out the bite and parch!

## PRINCE ALBERT

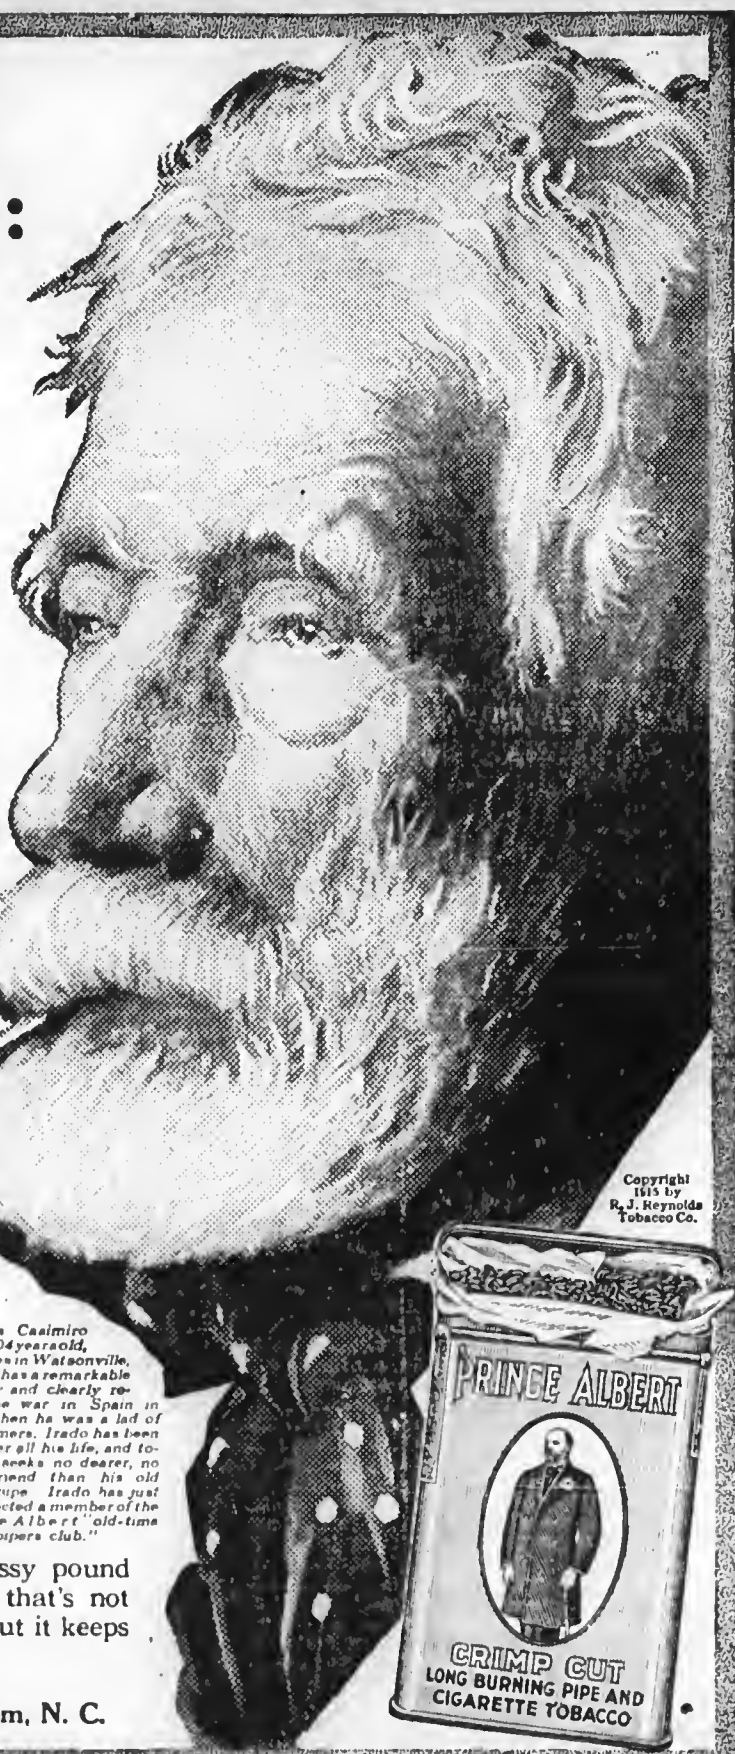

the national joy smoke

just hands you home-made questions like these:

Were you ever pipe-happy? Did you ever hit a brand that just pushed pleasure against your palate? The kind that sort of teased your smokeappetite for some more fire-up, then another—and so on, right to the pillow-period! Well, that's P. A., no matter how you hook it up—pipe or cigarette. It just-jams-joy into your system! You nail that fact hot off the bat, because it's case-cards information! And handed out to you for personal and immediate attention as being about as real and true as you've heard since Hector was a pup!

P. A. is sold in the toppy red bag for the price of a jitney ride, 5c; tidy red tin, 10c; pound and half-pound tin humidors—and—the classy pound crystal-glass humidor with the sponge-moistener top that's not only a joy'us thing to have at home and at the office, but it keeps P. A. in the highest state of perfection.

### LETCHER COUNTY AND WHITESBURG.

#### What is Happening in this Rich Coal Territory of Kentucky.

WHITESBURG, KY., Oct. 20. State Forester J. E. Barton spent several days in Letcher county the past week looking after the protection and care of the forests of this section, as well as the recent organization of The Eastern Kentucky Forest Protective Association formed at Jenkins in the coal fields.

Mr. Barton is one of the busiest men in the state at this time, as he is determined that the forests, the native hardwoods of this country must be protected and saved from the wanton outrages that annually destroy and waste so much valuable young timber. The organization at Jenkins is doing a good work already and the future will show this to be an important factor in the preservation of our forests. The first lookout station to be built in the mountains has been completed by the association far back in the Cumberland mountains several miles from Jenkins at a point near the Virginia border line.

This lookout is connected with Jenkins central telephone office and in case of an outbreak, a forest fire, or anything unusual instant communication can be established with the officials of the organization. About 200,000 acres of timber lands have already been subscribed to the organization, and more is to be added. The Consolidated Coal Co. pledged 100,000 acres. Other organizations of the same kind have been established and organized in different sections of the mountains.

At this time it looks as if politics is warming up to a considerable extent. On Saturday James E. Lewis, of this city, candidate for Secretary of State on the republican ticket had an appointment to speak here, but something unforeseen called him to Fleming where he spoke that night to a large crowd.

Following Judge Lewis Hon. Thomas L. Walker, of Lancaster, republican candidate for Lieutenant Governor

### A WORD FOR MOTHERS.

It is a grave mistake for mothers to neglect their aches and pains and suffer in silence—this only leads to chronic sickness and often shortens life.

If your work is tiring, if your nerves are excited, if you feel languid, weary or depressed, you should know that Scott's Emulsion overcomes just such conditions. It possesses in concentrated form the very elements to invigorate the blood, strengthen the tissues, nourish the nerves and build strength.

Scott's is strengthening thousands of mothers—and will help you. No alcohol. Scott & Borne, Bismarck, N. D.

spoke in the interest of his candidacy. However, Mr. Walker filled Judge Lewis' appointment here, speaking at once to a crowded court room.

Both men, in making ground in the mountains, Judge Lewis especially, being a mountain man, born and raised in Whitesburg, he is endeared to the people. Democrats and republicans alike reverence him.

Hon. David Hays, the democratic candidate for circuit judge of the new Letcher Pike district is in Pike county this week whooping up and talking his candidacy against the Hon. John F. Butler, republican, of Pikeville. It looks as if Mr. Hays will be a winner. John S. Webb, democrat, and Willie W. Sergeant, republican, are each hustling for votes in their contest for the Legislature from the 25th district, comprising Letcher, Knott and Floyd. Webb will win as the district is nearly two thousand democratic strong.

Judge James M. Robinson, of Pikeville, who will, within a few days close an important special term of the Pike Circuit Court at Pikeville, has set down a special term for Letcher county to be held here beginning November 8, when an effort will be made to clear the docket of its much congested condition. A large number of interesting and important cases, pending for years will be tried out at the special term.

Chestnut is reported unusually abundant in sections of this county, especially around the headwaters of the creeks penetrating the Cumberland or Pine Mountain section. Many people are daily going and picking up vast quantities of them. Prof. and Mrs. Eastman of the Whitesburg public schools went into the Cumberland Mountain Saturday and gathered a fine lot for winter.

A goodly number of people of the county, especially the section around Jenkins and Metoberts, the coal fields, went to Pikeville Monday to hear the Hon. Ollie M. James expand pure old democracy in its simplicity. They were pleased with the big Senator from Kentucky. Ollie James usually gets crowds.

Revenue officers headed by Deputy Collector Claude F. Beverly and Marshals Jones and Hurt of Big Stone Gap made a moonshine raid through the Pound River section just over the Kentucky border in Wise county Saturday where they cut and destroyed two good sized moonshine, illicit stills with complete fixtures. Two moonshiners were arrested. Officers of the Government report that the moonshine business has been steadily falling off or decreasing for two or three months. As a result little lawlessness is going on.

It is said here that the new post-office at Sees in the coal fields above here will begin serving the good people of the hustling new town some time this week. Prof. Ben F. Wright will be the new postmaster. A new school has been established there in order to accommodate the children of the town. Sam T. Webb is principal of the school.

### REPORT OF CANNING CLUB GIRLS

Louisville, Ky., Oct. 12, 1915.  
Hon. Jay H. Northup, Louisville, Ky.  
My dear Mr. Northup:—

In acknowledging from you the receipt of list of donors to the fund to enable the starting of Girls Canning Clubs in Lawrence county for 1915 and also the payment to me of one hundred and fifty dollars in full payment of Lawrence county's part of my salary, I desire to thank all of the donors.

My assistant Miss Gault is not a participant in this fund, she being paid direct from a fund created by what is known as the Smith-Lever Act of Congress. She joins me in acknowledging most of the many kindnesses and courtesies extended to us by the citizens of Lawrence county during our stay in the county and we shall always remember with pleasure the many good friends we have made and most especially the girls who were in the Canning Club.

Very respectfully,  
EMMA L. COLLINS,

### OUCH! MY BACK! RUB LUMBAGO PAIN AWAY

#### RUB BACKACHE AWAY WITH SMALL TRIAL BOTTLE OF OLD "ST. JACOB'S OIL."

When your back is sore and lame or lumbago, sciatic or rheumatism has you stiffened up, don't suffer! Get a small trial bottle of old, honest "St. Jacob's Oil" at any drug store, pour a little in your hand and rub it right on your aching back, and by the time you count fifty, the soreness and lameness is gone.

Don't stay crippled! This soothing, penetrating oil needs to be used only once. It takes the pain right out and ends the misery. It is magical, yet absolutely harmless and doesn't burn the skin.

Nothing else stops lumbago, sciatic, backache or rheumatism so promptly. It never disappoints!

Russell Shops Working Nine Hours a Day.

Notice was posted in the Chesapeake & Ohio shops Monday ordering all departments on a 9-hour day for every day in the week except Sunday.

Heriberto the men had been working nine hours for five days, five hours on Sunday.

The notice means the biggest shop pay-roll here in many years it is said.

DUAL-PURPOSE COW.

No one ever claimed that dual-purpose cows would be as profitable for milk production alone as straight dairy cows. If they were as profitable for milk production there would be no more use for straight dairy cows, the dual-purpose breeds would certainly supplant them. The whole story can only be told by taking into consideration the progeny of the dual-purpose cow as suitable for meat and following small trial bottle to the block, is it not singular that some men do not have sufficient comprehension to see the reasonableness of this contention? asks a writer in the Breeders Gazette.

Suppose a dual-purpose cow gives but 6,000 pounds of milk in a year, that tests 3.7 per cent. of fat. Roughly speaking, the cream product of that cow should be worth \$75 per year.

Suppose the calf of that cow is raised on skim milk and adjuncts, and that it is pushed along on suitable farm feeds, will it not weigh 700 pounds at the age of one year? Will it not sell for \$50 at our stockyards? Who will take it upon himself to say that when the extra labor of caring for the cow and the extra feed she has eaten are accounted for, she has produced more net revenue to the owner in the form of cream than her calf has in the form of meat? That is a nice question that only the experiment stations can answer.

SITUATION IN EASTERN KY.

Reports received in Louisville Thursday from Eastern Kentucky were said to indicate steady gains for the Democratic nominees in all that part of Kentucky. Mr. Morrow, the Republican nominee for Governor, himself comes from the Eleventh district, and, at first, the Republican leaders were disposed to make big claims in that part of the State, but the pendulum has begun to swing in the other direction, and from many counties the reports indicate Democratic gains.—Louisville Times.

### POULTRY PICKINGS.

All old hens that have become unprofitable should be disposed of. It is only a waste of money to be feeding a lot of hens that bring in no revenue.

All male birds that are not needed for next year's breeders are the first ones that should be eliminated from the flock.

Buttermilk makes good eggs and lots of them.

Half starved hens are not so productive as fat ones.

Loose bowels show an excess of some kind of food. Find out what it is and slow up a bit.

### SMALL FLOCKS AND LARGE COMPARED

After investigating the matter thoroughly, together with what experience I have had, I see a benefit in flock matings where the flocks are not too large, where these flock matings are used for egg farming only and where the strictest cleanliness is observed, writes M. K. Boyer in the Western Poultry Journal.

Flocks of 100 head should be the limit—fifty would be better. But this for egg farming only. When it comes to breeding, the flock system is entirely wrong. While there may be good fertility, there will not be as good, strong chicks. Breeding pens should vary—according to the breed—from six to fourteen females to a male. In Asiatics (Irishmas, Cochins, Bangshans) six females to a male is best; in the American class (Plymouth Rocks, Wyandottes, Rhode Island Reds, etc.) ten females to a male, and in the Mediterranean class fourteen females and a male.

During the course of my experiments I had all sorts of experiences. One year I mated thirty Leghorn pullets to a strong, vigorous male, and the eggs proved very fertile. The next year I sold off ten of these females and was surprised that the remaining twenty pullets (they were yearling hens then) gave me better laying than the thirty old as pullets. I do not wish to say that hens are better layers than pullets, but I believe that this incident proves that had my thirty pullets been divided

Polish fowls are one of the oldest known breeds. The American standard of perfection recognizes nine different varieties of Polish, the most striking of which is the White Crested Black. The hens are prolific layers of white eggs, which, however, are small, and the fertility does not run as good as in other breeds. The mature fowls are smaller than the Leghorns, but can be raised with profit with care. The picture shows a White Crested Black Polish hen.

## WEST VIRGINIA POLITICAL GOSSIP.

From down in the southern section of the state comes the gossip that Hugh Ike Shott, Bluefield editor, is trimming his sails for another contest for the Congressional nomination with Representative Edward Cooper, of Brannwell, the wealthy coal operator of Mercer county. Since the primary election of 1914, when Cooper won over Shott, the district has been revamped by legislative act, Cabell and Raleigh counties having been taken from the Fifth District. Shott made a strong showing in the contest of 1914, although he had practically the entire Republican organization of the district, and many outside of the district, opposed to his candidacy. His friends feel that his chances have been considerably improved, both by the redistricting enactment and the exigencies of politics during the last year.

Senator Wells Goodkootz, of Williamson, in a recent declaration, gave voice to an utterance which may finally result in the settlement of the Virginia debt controversy. Senator Goodkootz, who was the administration floor leader in the State Senate during the recent sessions of the Legislature, expressed the conviction that the people themselves should be permitted to determine whether or not they will pay the recent judgment of approximately \$13,000,000 which the Supreme Court of the United States apportioned to West Virginia at the conclusion of the debt suit.

Senator Goodkootz also declared that he saw no reason for assembling the Legislature in special session to tackle the debt problem, but stated that it was within the province of the bondholders to mandamus the Board of Public Works to lay a sufficient levy to pay the judgment against West Virginia. This action, however, will hardly be undertaken.

Cabell county may provide the next Democratic nominee for State Auditor. At the present hour two Democrats of considerable prominence in that county are mentioned as probable candidates. The veteran Democrat F. E. McCullough, who served several terms as County Clerk of Cabell county, has been started by his friends as a candidate for the Auditorship, while Charles R. Wilson, whose name was recently connected with the Democratic nomination for Sheriff of Cabell county, has under consideration the advisability of being a candidate for the Democratic nomination for State Auditor--Cincinnati Enquirer.

### PIKEVILLE COLLEGE STARTS ENDOWMENT FUND.

Dr. J. F. Record, President of Pikeville College, is preparing a campaign to raise an endowment fund of \$100,000 for the institution. From a certain man of means in Kentucky (whose name is being withheld, but who has in past years contributed very liberally to the college) comes the offer of \$5,000 to be given as soon as \$15,000 is raised from other sources, to make the first \$20,000 step on the endowment. The college expects to be able to raise the fund successfully within the next year.

### BALL TEAM.

The team of the Christian church engaged the former Methodists in a ball game at the Ball Park last Saturday afternoon. The game was a victory once more for the Christians.

For this season there will be very little more sport activity. At the present time a good many of the city's best players are out of town, and only the amateur teams are left to carry on the work. For these reasons and the additional reason that cold weather is not far distant, the ball season for this year may be considered closed.

### JUDGE LEAVES BENCH.

The Pike Circuit Court began in session here during the past six weeks, and this will be Judge J. M. Robertson's last court to be held at Pikeville, unless a special term. His last term of the district will be held at Whitesburg, beginning Nov. 9th.

During his term as specially appointed Judge of the 35th district Judge Robertson has served with dignity and honor upon the bench. He had full and complete control of the court, and administered the law with the greatest political impartiality. He has not been successful in this undertaking, as viewed from the point of local construction, his motives were of righteous character, and the failure was due to a weakness of the law, as pointed out by the Court of Appeals in reversing the bribery cases. Both Judge Butler and Mr. Hays, the candidates of their respective parties for Circuit Judge to succeed Robertson, we feel, are equally zealous of riding our county of the taint of bribery corruption, which through years of graft and political system that the strongest moral courage and conviction must be in the official mind, and resolutely backed by the public sentiment to put an end to it.

### WILL ATTEND REUNION.

Mrs. Elizabeth Ratliff, Mrs. T. M. Perry and Mrs. Margaret Phelps, being descendants of Richard Wells, will attend the reunion of the Wells descendants to be held at the burial place of Richard Wells in Johnson county November 13.

This will perhaps be the greatest family gathering event ever held in the Sandy Valley, and it will be a memorial to one of the oldest and best known families in the valley, as well as to the honored ancestor who was a Revolutionary soldier and who died in Johnson county nearly 100 years ago.

The three ladies to attend from Pikeville are great granddaughters of the celebrated soldier of the Revolution, and they are thoroughly familiar with the history of the Wells family from the time of their immigration from England. Circuit Judge J. M. Robertson is also a descendant of this well known family; but on account of the fact that at the date of the memorial meeting he will be in the midst of a term of the Letcher Circuit Court at Whitesburg, it will be impossible for him to attend.

### SENATOR JAMES SPOKE AT PIKEVILLE.

Senator Ollie James arrived at this place last Sunday on his speaking tour of the state and addressed an enormous gathering of people here Monday afternoon. The spacious circuit court room was packed to hear the great senator Democrat give utterance to his views on the coming campaign, state and national. One of the striking features of his great address was a beautiful eulogy on Woodrow Wilson delivered as part of the closing of his address. It was one of the most delicate and masterful examples of oratory that a Pikeville audience has ever listened to.

At the close of the address he was greeted with a shower of beautiful bouquets and he shook hands with the greater part of the audience, and a photo was made of the big Senator as he sat in a carriage covered with the flowers which he had received.

Many persons from Prestonsburg and Paintsville attended this speech.

### APPELATE COURT THINKS TAVERNS UNNECESSARY.

In considering the appeal of certain West Virginia litigants who wanted to establish taverns in the Blackberry precinct of Pike county, for the sale of liquor near the frontier line of the dry state of West Virginia, the court in affirming the Pike Circuit court, had this to say:

"The people of the State of West Virginia voted in favor of prohibiting the sale of intoxicating liquors in that State, and soon thereafter these appellants, upon discovering that the sale of whiskey by retail in Blackberry precinct of Pike county, Kentucky, just across the little Tag river from West Virginia, might be permitted if license could be obtained to operate a tavern with this privilege proceeded to make application for the licenses involved in these appeals. It seems that before the State of West Virginia went dry it had never occurred to these appellants, or any one else, that the accommodation of the traveling public required the setting up of taverns in Blackberry precinct at the places designated by

appellants. But with West Virginia only a few steps from Blackberry precinct, dry, with a large mining population in Blackberry precinct and a thickly settled country across the river in West Virginia, this Kentucky precinct seemed to afford a most inviting field for saloons; and so these appellants suddenly became very solicitous about the comfort and convenience of the people of Pike county and proposed to speedily supply the accommodations for the traveling public in their judgment. With this object in view they each undertook to obtain the licenses that were granted by the county court.

Robinson applied for license to establish a tavern and saloon, or rather a saloon, in what is called the Hatfield building, a miner's house on the bank of Tag river, within a few hundred yards of the public school building and near by a mining camp, although there had never been a tavern at this place or nearer to it than the town of Thacker, at which place, about one quarter of a mile distance, there were hotels and boarding houses.

Hatfield concluded that it was necessary for the accommodation of the traveling public to set up a saloon with a tavern as an annex at the mouth of a tunnel on the Norfolk and Western railroad, although there was no railroad station, post office, village or even public road at the place.

And Baskirk took up the notion that a tavern with the privilege of selling whiskey was needed to accommodate the public in the so-called town of Baskirk, a little hamlet of probably twenty-five people including children situated immediately across Tag river from the city of Matewan, W. Va., where there are two hotels.

"The idea that a tavern for the accommodation of the public was needed at any of these places is so preposterous that we do not deem it necessary to do more than to make the brief statement of fact heretofore set out. It might, however, be said, although unnecessary, that a majority of the people living in the neighborhood where it was proposed to set up these saloons protested against their establishment, pointing out to the county court in earnest and appealing words that saloons in this unpopulated territory would be a menace to the peace and quiet of the community and of no benefit or accommodation whatever to any person except the proprietors."

### WILL ATTEND SYNOD.

The Annual Kentucky Presbyterian Synod will be held at Ashland during next week. Several persons from Pikeville will attend, including Rev. J. R. Russell, pastor, Dr. J. E. Record, President of Pikeville College, T. H. Herman and others.

The semi-annual Synod will also be held with the Synodical Convention. Dr. Condit, the Ashland pastor, will be the retiring Moderator. This year, a precedent was broken, when Dr. Condit was elected to fill this honorary office for two consecutive years as a recognition of the great and beneficial work he has done in Kentucky. The fiftieth anniversary of his work as pastor of the Ashland church will also be fittingly celebrated.

### WANTED.

Pikeville wants a dairy, and wants it bad. At the present time there is a milk famine on hand, and many people who formerly sold milk are now trying to buy. The country people are doing what they can to supply the demand, but they could market two or three times as much more every day.

The milk and butter consumers of Pikeville could organize a cooperative dairy, and they would thus be able to secure all dairy products at low cost of production.

### ACTING CITY ATTORNEY.

W. K. Steele is at present acting city attorney, the office having been vacant since the resignation of W. K. Elliott. Mr. Steele is creditably performing the duties of the office and is making an able official. He will serve until a new candidate is elected to fill the place in November.

### GREAT REVIVAL CONTINUES AT TABERNACLE.

The revival now going on at the Island creek Tabernacle is gathering power and has become an irresistible force. The meetings are now under the sole direction of Rev. M. C. Reynolds, and it has proved to be the greatest shake-up that has ever been seen in this country. It is said that people who have disputed on points of the faith hitherto have now joined together with the united purpose of serving God and helping to promote His Kingdom on earth, and the result has been miraculous.

The Tabernacle was crowded to the limit Sunday night, and many were turned away. The same great crowd has been on hand during the past week, and about fifty persons from Pikeville attended each meeting daily.

### Getting Religion.

Many are being directly affected by the religious spirit that now permeates the revival. Since the opening 27 persons have been converted, 7 have been sanctified, and 16 were at the altar Tuesday night, besides scores that have specially asked the prayers of the Christian people. Miss Edith Clark, of Condit, Ky., who is also aiding Mr. Reynolds by having charge of the singing, is one of the moving spirits of the revival, and she has contributed largely to its success. She will remain with the revival until its close, which now seems a long way off.

### Satan Pays Call.

One of the most weird stories ever told in the mountains was unfolded to the congregation Tuesday night by Mr. R. Justice of Island creek, who is now a converted man. He believes that God was forcing him to repentance. His wife had spent 30 hours in prayer for him, and he was indifferent to the meeting. In answer to her prayer a knock at their door was heard Monday night, and each urged the other to open to the stranger. Finally Mrs. Justice went to the door and opened it

with the words of faith, "Come in, Lord," but Satan stood squarely across the doorway with his chains, and according to Mr. Justice a thousand imps swarmed into the room. Justice instantly went upon his knees for mercy and his cries and wailing kept the neighbors awake all night, and many others, when they heard his story, spent the night with him in prayer from 11 o'clock. Rev. Mr. Reynolds reached his home the next afternoon to hear him, and conversion came at 4 o'clock Tuesday afternoon.

Mr. Justice is certain that Satan called at his home, and his story is supported by his wife and Mr. Reynolds, two Christian people. He will listen to no contradiction, and firmly believes that God had to lift the lid to give him a view of torment before he could be brought to repentance.

### MRS. ELLIOTT SUCCESSFUL AT ACADEMY.

Mrs. R. C. Elliott, who has charge of the school at the academy, below Pikeville, is enjoying great success, and it is said that school is much better than before. Mrs. Elliott has been a teacher for many years, and of late she has been highly successful.

She has purchased a supply of wire and is having the school fenced in, and will further beautify the grounds by setting out shade trees.

### COAL RUN LUMBER PLANT WORKING.

The village of Coal Run is becoming the center of a considerable lumber industry. Much more have been cut extensive walnut and ash timber holdings in the neighborhood of Coal Run, and the saw mill belonging to Wade Cassidy which was formerly on Lykins creek has been moved to Coal Run, and already the mill is turning out a big supply of lumber, the yard being constantly full and shipments going out daily.

### NIGHT SCHOOL.

A night school will be opened at the Pikeville public school under the leadership of Prof. John Shaw and Rev. T. S. Tinsley. These teachers have charge of the high school department, and the night school will be opened for the benefit of those who have to go to the time to attend day schools, and no tuition will be charged. The only requirement will be a moral promise of each student that he will put forth his best effort to benefit by the teaching.

The next chief of Police of Pikeville will be a student of these night classes. We are not saying who that will be, but both Mr. Tinsley, the Republican candidate, and Mr. Keathley, the Democratic candidate, have enrolled, along with a number of other grown-up scholars.

There is yet room for more.

### FOOTBALL TEAM.

Under the management of Prof. Shaw and Rev. Tinsley a football team has been organized among the high school students. The team will begin practice work at once, and expects to play match games with Catlettsburg, Louisa, Paintsville and Jenkins this season.

## FLOYD COUNTY'S RECORD FOR WEEK.

### News From Prestonsburg and the Surrounding Country.

The Fair exhibit this year was very good, it being the first ever held in Floyd county. While there was a lack of organization the few people who took an interest in it did all they could to make it a success. We hope next year to have a better fair. The farmers and business men are going to get behind the county association and help in every way they can.

The instructions given by Mr. Comely representing the agricultural department of the state will be a great help to the farmers.

There was quite a display of fancy needle work. The ladies Mrs. Jones said it looked well with the exhibit at the state fair.

Another important feature was that of horseback riding. The best July rider was Miss Tressa May. The best gentleman rider, Dr. Henry Hatcher. It is impossible to give names of all the different things that were on exhibit, but in order that the people in the adjoining counties may know that we have "something in old Floyd" we challenge them to know a pumpkin larger than that raised by Wm. McVay, Mr. N. M. White, Sr., not included in this challenge.

The Ladies Aid Society met at the home of Mrs. B. F. Combs Wednesday afternoon. After spending a few hours in sewing Mrs. Combs was assisted by her attractive niece Miss Claudia Ferguson in serving refreshments consisting of sherbet, cake and after-dinner mints.
